

CPEN 400Q Lecture 21

Hands-on with the variational quantum eigensolver

Monday 25 March 2024

Announcements

- Quiz 9 today
- Final literacy assignment distributed this week

Next time

Content: starting final course unit

- Density matrices and mixed states
- Moving towards descriptions of noise in quantum systems, and near-term processors

Action items:

1. Watch for literacy assignment
2. Work on project (remember to fill out weekly surveys!)
